

Sexual Health Services Review

Please return this survey by 30th November 2013

Gateshead Council is undertaking a review of sexual health services in Gateshead to inform future service provision. As part of the review it is important that we seek as many people's views about the existing service provision as possible. We want to benefit from the insight your organisation could provide to the review, given your unique position working with groups/individuals that may be at increased risk of poor sexual health and or face barriers to accessing sexual health services.

Please complete this questionnaire from your own perspective as a health practitioner in your organisation or service. All responses will be treated in confidence and comments made will not be attributed to specific organisations in the report. Please do not provide any case-specific or patient identifiable data.

You can **complete this survey online** at <https://consultation.gateshead.gov.uk/KMS/elab.aspx?noip=1&CampaignId=334&SessionId=RBN3WKB57P> which may be quicker for you and makes it easier and less costly for us to collect the information. Alternatively, you can send this paper version to Emma Gibson, Public Health Team, Gateshead Council, Civic Centre, Regent Street, Gateshead, NE8 1HH.

1. Name of your organisation...

2. In your opinion, what are the top 5 priorities for sexual health in Gateshead?

(Please tick up to FIVE boxes only)

Priority

- Reduce the transmission of HIV and sexually transmitted infections (STIs) among people of all ages
- Reduce the late diagnosis of HIV
- Increase the uptake of HIV testing with particular emphasis on vulnerable groups
- Increase the uptake of effective methods of contraception, including Long Acting Reversible Contraception (LARC)
- Increase awareness of access to advice and support for unintended pregnancies
- Reduce the stigma associated with HIV and STIs
- Preventative interventions that build personal resilience, self-esteem and improve sexual health and well-being
- Timely access to sexual health counselling and support services
- Build knowledge and resilience among young people
- Rapid access to confidential, open-access, integrated sexual health services
- Reduce unintended pregnancies among all women of fertile age
- All children and young people receive good quality sex and relationship education at home, at school and in the community
- Workforce education and training on sexual health and contraception
- Any other priorities not listed

Thinking about sexual health service provision in Gateshead...

3. What is working well and why?

4. What is not working well and why?

5. What would you like sexual health services in Gateshead to look like in 5 years time?

6. Do you have any additional comments about sexual health services in Gateshead?

Thank you for completing this survey
