Date Signed : _____

Pharmacy Contractor [Insert Name] _____ (1)

-AND-

Pharmacy Services North East Limited (2)

**VARIATION AGREEMENT TO AGREEMENT
FOR THE SUPPLY OF THINK PHARMACY
FIRST, SPECIALIST DRUGS, AND MAR CHART
SERVICES WITHIN SOUTH TYNESIDE**

THIS VARIATION AGREEMENT is made **BETWEEN:**

- (1) **The Pharmacy Contractor** ; and
- (2) **Pharmacy Services North East Limited**, registered in England number 09764592 whose registered office is at Azure Business Centre, High Street, Newburn, Newcastle upon Tyne, NE15 8LN (“the **Commissioner**”)

each a ‘Party’ and together the ‘Parties’

BACKGROUND

- (A) The Pharmacy Contractor and the Commissioner entered into an Agreement (*as defined below*) for the provision of Think Pharmacy First, Specialist Drugs, SharpEnd and Mar Chart services for all eligible patients in Northumberland, North Tyneside, Newcastle, Gateshead and South Tyneside.
- (B) The Parties now wish to vary the arrangements between them by way of a variation to the terms of the Agreement as set out in this Variation Agreement.

THE PARTIES AGREE as follows:

1 Definitions & Interpretation

1.1 In this Variation Agreement:

“**Agreement**” means the original agreement under which The Contractor provided Think Pharmacy First, Drugs, SharpEnd and Mar Chart services for all eligible patients in Northumberland, North Tyneside, Newcastle, Gateshead and South Tyneside.

“**Effective Date**” means 1st September 2021.

1.2 All terms defined in the Agreement shall have the same meaning in this Variation Agreement.

2 Commencement

2.1 This Variation Agreement shall come into force on the Effective Date.

2.2 Save as varied by this Variation Agreement, the provisions of the Agreement shall remain in full force and effect. In the event that there is any conflict between the provisions of the Agreement and this Variation Agreement, the provisions of this Variation Agreement shall prevail.

2.3 All references to Clauses or Schedules are to clauses of or schedules to the Agreement.

3 Variations

3.1 With effect from the Effective Date, the following variations shall be made to the Agreement:

- (a) Schedule 2 and 3 shall be altered to include the details in Annex 1 of this Variation Agreement.

Annex 1

Variation to Schedule 2; Addition of the following service

The service

EHC in South Tyneside

SPECIFICATION

Service	Local Enhanced Service for the Provision of Emergency Hormonal Contraception (EHC) through Community Pharmacy
South Tyneside Integrated Sexual Health Service Lead	David Newell
Provider Lead	Pharmacist
Period	April 1 st 2021 - March 31 st 2022

1. Purpose

1.1 Introduction

The Service is to provide an Emergency Hormonal Contraception (EHC) Service, the dispensing of Levonorgestrel 1500 mcg tablet and Ulipristal 30mg tablet (ellaOne, see **Appendix 1** for PGDs) including the signposting / referral of Service Users into other local Sexual Health services and or General Practice.

Should the exclusion criteria for the PGD(s) apply, Pharmacists must take all practicable steps to provide the Service User with a same day referral appointment to their GP or the sexual health service.

Provision of free Dual Screen (chlamydia and gonorrhoea) kits for under 25-year olds (which attracts a payment - see Pricing page 15 and signposting / supply of free condoms can also be part of this Service. Please contact South Tyneside Sexual Health service (<https://www.southtynesidesexualhealth.nhs.uk/>), Telephone 0191 402 8191, or secure email inbox sexualhealthreferrals@nhs.net for further details.

National guidance on supplying emergency contraception during the COVID-19 pandemic can be found here www.fsrh.org/documents/fsrh-guidance-srh-services-second-wave-covid-october-2020/

The Service is to be delivered by accredited Community Pharmacists, free of charge to the Service User, according to the approved local Patient Group Directions (PGDs), the most recent versions STSFT 067 2020 (Levonogestrel 1500 micrograms oral preparation) and STSFT 068 2020 (Ulipristal acetate (Ellaone) (see **Appendix 1**).

Pharmacists must record each consultation using Pharmoutcomes as it occurs (live service). All fields must be completed to ensure prompt payment.

Throughout this document, the term Pharmacist refers to pharmacists registered with the General Pharmaceutical Council to practice in Great Britain and providing the Service as employee/agent of the Provider.

1.2 Background

Sexual health is an important area of public health. The Government set out its ambitions for improving sexual health in its publication, *A Framework for Sexual Health Improvement in England*.¹

Sexual health needs vary according to factors such as age, gender, sexuality and ethnicity, and some groups are particularly at risk of poor sexual health, especially young people, Men who have sex with men (MSM) and BME groups. Strong links exist between deprivation and sexually transmitted infection (STI's), teenage conceptions and abortions.

From 1 April 2013 local government has been required by regulation to commission HIV Prevention, open access genitourinary medicine (GUM) and contraception and sexual health services (CASH) for all age groups. This includes services commissioned from general practice and pharmacy, such as long acting reversible contraception (LARC), Emergency Hormonal Contraception (EHC), including chlamydia screening.

1.3 Evidence Base (from latest available data <https://fingertips.phe.org.uk/>)

Equitable access to EHC is an important step in the drive to reduce teenage and unplanned pregnancies. The broad coverage that pharmacies offer ensures good geographical accessibility. Pharmacies must provide a confidential, and maintain, an anonymous service in an environment that respects the dignity and confidentiality of the Service User.

Teenage Conceptions (Under 18)

There has been a 22% reduction in South Tyneside for under 18 conceptions since 1998 (source: Office for National Statistics).

Termination Rates

The abortion rate is increasing. In 2018 the abortion rate for South Tyneside, (17.3 per 1000) was higher than the NE region (15.5) and the England rate (17.5).

The under 18 abortion rate for 2018 (8.7 per 1,000) was lower than the regional (10.0) and higher than the national value (8.1).

In 2017, 51.2% of under 18 conceptions in South Tyneside led to abortion. The NE and England figures were 40.2% and 52% respectively.

¹ Department of Health (2013). *A Framework for Sexual Health Improvement in England*. (<http://www.dh.gov.uk/health/2013/03/sex-health-framework/>)

In 2018, of South Tyneside women aged under 25 who had an abortion, 25.1% had also had an abortion previously. This compares with 24.2% of women in the North East and 26.8% of women in England.

2. Service Scope

2.1 Service Description

The Provider must ensure when delivering the Service, that the various contraceptive protection and sexual health service options are discussed in conjunction with or without supplied medication. All women asking for emergency contraception must be told that a copper intrauterine device is more effective than an oral method (NICE Quality standard [QS129] and Faculty of Sexual and Reproductive Healthcare www.fsrh.org/standards-and-guidance/documents/ceu-clinical-guidance-emergency-contraception-march-2017/). Free dual screening kits can also be supplied by the Provider to Service Users as well as signposting to free condom scheme providers. Please contact the sexual health service to discuss this.

Requests to restock dual screen kits can be made to Dan Dobson at the Integrated Sexual Health Service by emailing sexualhealthreferrals@nhs.net or telephoning 0191 402 8191. The Provider will actively signpost to the Integrated Sexual Health Service to encourage full sexual health screening.

Should the exclusion criteria for the PGD(s) apply, Pharmacists must take all practicable steps to provide the Service User with a same day referral appointment to their GP or the sexual health service.

2.2 Aims and objectives of Service

The overall aim of the Service is to improve access to EHC for women aged 14yrs and above and to develop and enhance the EHC Service to contribute to reducing unplanned pregnancies and incidences of STIs.

The aims and intended outcomes of this Service are:

- To improve access to emergency contraception and sexual health advice.
- To increase the knowledge, especially among young people, of the availability of free emergency contraception from local pharmacies.
- To contribute to a reduction in the number of unintended pregnancies in the patient group.
- To increase the knowledge of risks associated with STIs relative to the type of contraception chosen.
- To signpost Service Users, especially those from high risk groups (Young people, BME), to available mainstream sexual health services.
- To contribute to the local network of contraceptive and sexual health services to help ensure easy and swift access to advice and services.

The objectives of this Service are to:

- Develop a network of community pharmacies offering an easily accessible, free emergency hormonal contraception to the patient group.
- Reduce health inequalities in sexual health
- Improve services, providing fast and convenient access and plurality of provision for Service User choice
- Provide advice on sexual health including onward signposting and referrals
- Increase referrals, particularly of higher risk groups, into mainstream sexual health services

3. Service Delivery

3.1 Service Model

All Providers shall provide a professional consultation service when assessing the Service User for emergency contraception.

- All women asking for emergency contraception are to be told that a copper intrauterine device is more effective than an oral method (NICE Quality standard [QS129] and Faculty of Sexual and Reproductive Healthcare www.fsrh.org/standards-and-guidance/documents/ceu-clinical-guidance-emergency-contraception-march-2017/).
- The Provider is to ensure all reasonable efforts are made to refer the Service User on to their GP or the sexual health service and provide a follow up appointment to the Service User whilst they are present, should the PGD exclusion criteria apply.
- The Provider must assess the Service User's suitability for EHC in line with the requirements of this Service Specification and the current PGDs see Appendix 1.

If the consultation decision is to supply EHC, then this is to be made free of charge to the Service User.

Pharmacists must record each consultation using Pharmoutcomes. This must be carried out as a live service. All fields must be completed.

The Provider will provide support and advice to Service Users accessing the Service, including advice on the avoidance of pregnancy, STIs through safer sex and condom use. Information will also be given on the use of long acting reversible contraception along with other regular contraceptive methods including the provision of information on how to access free condoms, either supplied by the Pharmacy as part of the Condom Distribution Scheme or referral to the Integrated Sexual Health Service. Supply of a free Dual Screening kit to each patient under 25 years old is also encouraged with a £1 supplement paid to the Provider by the Integrated Sexual Health service.

The Service is to be provided in compliance with Fraser guidelines and Department of Health guidance for the provision of confidential sexual health advice and treatment for young people aged under 16.

www.fpa.org.uk/factsheets/under-16s-consent-confidentiality

3.2 Care pathways

The Service standard or standard operating procedures set by the Provider must reflect national and local child and vulnerable adult safeguarding procedures.

A full guide to local arrangements can be found here:

<https://www.stsft.nhs.uk/services/safeguarding-adults-and-children>

Please refer to Appendix 2 for local safeguarding pathways

Whenever the exclusion criteria apply, or the Service User wishes to use the option of copper intra-uterine device for emergency contraception, the Provider must refer the Service User onto a specialist sexual health service <https://www.southtynesidesexualhealth.nhs.uk/> or their GP if necessary. All practicable steps should be taken by the Provider to ensure the Service User is provided with a **same day referral** before they leave the consultation. It is recommended that Service Users requesting IUD as emergency contraception are also given EHC unless contraindicated. Providers are advised to keep an anonymous record of all these referrals.

When an accredited Pharmacist is not available to make a supply of EHC under the PGD, or in the event a supply cannot be made for whatever reason, the Service User is to be actively referred to or advised of alternative sources of supply, including other pharmacies that supply EHC under PGD and other local contraception and sexual health services, including General Practice. The Provider must telephone the referral to the service to which they are directing the Service User, to ensure that the service is available to the Service User that day and an appointment is confirmed and supplied to the Service User.

-

- 3.3 Interdependencies and relationships

The Provider will maintain efficient working relationships with allied services, agencies and stakeholders to enhance the quality of care delivered and ensure the holistic nature of the Service. Specifically, linkages are to be maintained with, GPs, the Integrated Sexual Health Service, wider Council services, and any other sexual health and secondary health service provider for use when relevant.

The Service cannot work in isolation and the Provider is required to work with partners to address the needs of Service Users and increase the opportunity for Service Users to achieve optimum sexual health outcomes. Partners will include:

- Abortion Providers
- Safeguarding Team
- Antenatal and post natal services
- Cervical Screening Programme
- Child and adolescent mental health services
- Drug, alcohol, obesity and smoking intervention services
- General practice
- Gynaecology
- HIV treatment and care services
- Male and female sterilisation services
- Mental health services
- Other healthcare service areas including voluntary sector
- Pathology and laboratory services
- Prisons and youth offender's institutions
- School and education services

- Sexual Assault Referral Centre
- Social Care
- Youth services

-

3.4 Relevant networks

The Provider is expected upon request to support programme developments across all Sexual Health Services in South Tyneside.

3.5 Communications

Posters advertising the service must be made prominent on site. To download free advertising posters in relation to this Service provision for your premises please visit www.fpa.org.uk/sexual-health-week-2014/information-professionals. The Provider is to also promote other local sexual health services and provide relevant written information in relation to the EHC service.

See also <https://www.southtynesidesexualhealth.nhs.uk/> for South Tyneside Integrated Sexual Health service, including clinic times and locations.

-

Other General health wellbeing websites with local information:

<https://www.southtyneside.gov.uk/article/35917/Health>

-

-

-

4. Service Location and Availability

-

-

4.1 Service location.

The Service is to be provided within the locality of South Tyneside, within the full opening hours of the community pharmacy contract.

The Provider must have and use an accredited consultation area. The consultation area must:

- Enable both the Service User and the pharmacist to sit down together.
- Enable the Service User and pharmacist to talk at normal speaking volumes without being overhead by other visitors to the pharmacy, or by staff undertaking their normal duties.
- Be clearly designated as a private consultation area, distinct from the general public areas of the pharmacy.
- Have suitable equipment to enable live input of data into the EHC Pharmoutcomes template.

4.2 Equality, Accessibility, Acceptability

All policies and services, including those relating to sexual health, should be designed to meet the needs of the entire target population. This should include action to address inequalities, wherever relevant².

² Department of Health (2010). *Equality Impact Assessment for National Sexual Health Policy*
http://webarchive.nationalarchives.gov.uk/20130107105354/http://www.dh.gov.uk/prod_consum_dh/groups/dh_digitalassets/@dh/@en/documents/digitalasset/dh_111231.pdf

4.3 Referral process and access.

Service Users may self-refer or be referred via appropriate professionals from a range of organisations.

Following the consultation, whether medication is supplied, the accredited Pharmacist may decide it is relevant to provide onward signposting to sexual health services that provide long-term contraception methods and diagnosis and management of STIs.

Providers are to give guidance and signpost Service Users to community contraceptive services and GPs as appropriate.

Providers are to inform the Service User of other health and social care providers and support organisations, such as Service User groups, when appropriate.

If it is appropriate to supply EHC under the terms of the PGD, it is to be made free of charge to the Service User.

Service Users are to be actively referred to the local specialist sexual health website, to access clinic times, locations and the option to remotely request dual screening (chlamydia and gonorrhoea) testing kits. <https://www.southtynesidesexualhealth.nhs.uk/>
All medicines supplied must be labelled to comply with the Medicines Act 1968.

-

5. Training & Qualifications

-

5.1 Training & Qualifications

Please refer to Schedule 1 page 11 and the PGDs: Qualifications/ Registration Requirements and Additional Requirements for a comprehensive description of requirements.

5.2 Patient Group Direction (PGD)

It is an absolute requirement under this Contract for the Provider to apply the PGDs (Appendix 1). These will be downloadable via the LPC website and the Pharmoutcomes template module.

6. Contract Monitoring and Quality Framework

6.1 The Provider must complete **all fields** as appropriate within the Pharmoutcomes module template as a live service.

Other quality indicators that must be evidenced upon request:

- Women asking for emergency contraception are told that a copper intrauterine device is more effective than an oral method.
- The Provider actively advertising the Service within the Provider's premises, together with related sexual health information and the main sexual health service clinic location and opening times which can be downloaded (see <https://www.southtynesidesexualhealth.nhs.uk/>)
- The Provider reviewing its Standard Operating Procedures (SOPs) and referral pathways for the Service on an annual basis
- The Provider ensuring that the Service is delivered within a private consultation area

6.2 A quality audit assessment can be arranged at any point within the Term of the Contract. To minimise the administrative burden, South Tyneside Integrated Sexual Health Service would accept from Providers, (where applicable), existing quality audit information generated for the purposes of other principal stakeholders, for example NHS England (NHSE), General Pharmaceutical Council (GPhC), Care Quality Commission (CQC) etc. South Tyneside Integrated Sexual Health Service will endeavour to give the Provider 28 days' notice that it is carrying out the assessment, however if concerns or issues are raised regarding the Service, South Tyneside Integrated Sexual Health Service can carry an unplanned assessment without any notice.

7. Performance Indicators

7.1 Performance of the Service is monitored by the completion of all required fields appropriate to the consultation via the PharmOutcomes platform.

7.2 The Provider will complete any national statistics as and when required. The Provider must supply information in relation to any other relevant Service outcome indicators requested by South Tyneside Integrated Sexual Health Service.

7.3 It is essential that the Provider submits accurate performance indicator data using PharmOutcomes within agreed timescales. Training will be given on request.

Please see Appendix 4, KPIs

8. Pricing

Please see Schedule 2, Pricing

9. Special Circumstances and Conditions

n/a

Appendix 1 Gateshead EHC PGDs -

These are available to download via the Pharmoutcomes South Tyneside EHC module and the LPC website

<http://www.gandstlpc.net/ehc-south-tyneside.html>

Appendix 2 - Local Safeguarding Arrangements

Comprehensive information and guides are available at

<https://www.stsft.nhs.uk/services/safeguarding-adults-and-children>

Appendix 3: CONDITIONS PRECEDENT

1. GPhC

Upon request, provide South Tyneside Integrated Sexual Health Service with the General Pharmaceutical Council Registration Number for the Pharmacy premises along with details of a Pharmacy Superintendent and their GPhC Number.

2. Insurance

Upon request, provide the South Tyneside Integrated Sexual Health Service with a copy of the insurance policies to illustrate that the Required Insurances are in place;

3. Training and Qualifications

3.1 Accreditation is via annual CPPE Declaration of Competence for Emergency Hormonal Contraception. Final declaration remains the professional responsibility of the practitioner.

It is recommended that the signed Declaration of Competence (DoC) required for this service is equivalent to the standards detailed within CPPE module Emergency Contraception www.cppe.ac.uk/programmes/l/ehc-e-03

Plus, practitioners MUST attend a local workshop (delivered by Consultant in Sexual Health), covering local pathways and safeguarding arrangements. Date of attendance **MUST** be **within 2 years** of the consultation claim. Practitioners must take all practicable steps to attend these workshops or payments may be withheld upon ongoing failure to do so.

3.2 Practitioners must meet and evidence upon request declared competencies for the purposes of audit and quality checks.

3.3 Providers must retain copies of their own or Staff's evidence of accreditation and training at the premises where they offer the Service and provide copies to South Tyneside Integrated Sexual Health Service upon request. This remains an enrolled service. Ensure CPPE viewer is enabled to allow commissioners the option to audit competency status.

3.4 The Provider will be required to comply with General Pharmaceutical Council Standards of Conduct, Ethics and Performance and demonstrate maintenance of knowledge, skills and competencies, with evidence of Continuing Professional Development, ideally via the professional registration and revalidation process on the General Pharmaceutical Council website www.mygphc.org/home

- 3.5 Competency in the use of PGDs (see NICE competency framework for health professionals using patient group directions).
<https://www.nice.org.uk/guidance/mpg2/resources>
- 3.6 The Provider shall ensure that each practitioner ensures their skills and knowledge are kept up to date prior to supplying under the PGD. Each practitioner supplying under the PGD should sign the Authorisation section of each PGD and that they accept personal responsibility for working under them, understand the legal implications and work within the scope of the PGD.
- 3.7 Each practitioner must sign and date the current PGD and locums should sign the PGD for each shop they work in.
- 3.8 The Provider must ensure that supporting Pharmacy Staff are trained in dealing with Service Users in a patient-centred, user-friendly, confidential and non-judgmental manner when requesting EHC. Providers are expected to work towards implementing the Department of Health paper 'You're Welcome' Quality Standards³.
- 3.9 Pharmacists must with appropriate underpinning knowledge to competently undertake the clinical assessment of patients leading to treatment according to the indications listed in the accompanying PGDs.
- 3.10 Each pharmacy must have a Standard Operating Procedure in place which covers the supply of Levonorgestrel 1500mg tablet(s) or a Ulipristal 30mg tablet via the PGDs.

³ <https://www.gov.uk/government/publications/quality-criteria-for-young-people-friendly-health-services>

Appendix 4.PERFORMANCE INDICATORS & SERVICE REQUIREMENTS

Performance Indicators	Threshold	Method of Measurement	Consequence of breach
The Provider is making full use of the promotional material made available for the service and promotes its uptake via window displays or similar	100% compliance	- Assurance process	Payment suspended
The Provider ensures that the Standard Operating Procedure (SOP) is in line with the Service Specification and reviews this SOP and the referral pathways for the Service on an annual basis.	100% compliance	- Assurance process	As above
The Provider can demonstrate that Pharmacists and Staff involved in the provision of the Service have undertaken CPD and / or training relevant to this Service	100% compliance	- Accreditation criteria - Assurance process	As above
Records kept regarding excluded Service Users, reasons for and subsequent actions or advice given.	100% compliance	- Assurance process	As above
Records of all drugs supplied in relation to this service for audit purposes.	100% compliance	- Assurance process	As above
Evidence of Fraser guidance fulfilled for under 16's.	100% compliance	- Assurance process	As above
Evidence of counselling given, future contraception needs explored, STI testing undertaken, treatment (if	100% compliance	- Assurance process	As above

necessary) and risk discussion and any details of onward referral			
Compliance with Pharmoutcomes database to input/monitor delivery of the Service (live input at point of consultation)	100% compliance	- Assurance process	As above
All women asking for emergency contraception are told that a copper intrauterine device is more effective than an oral method (NICE Quality standard [QS129] Published date: September 2016 & FSRH Emergency contraception March 2017)	100 % compliance	- Assurance process	As above

A quality audit assessment can be arranged at any point within the Term of the Service. To minimise the administrative burden, the South Tyneside Integrated Sexual Health Service would accept from Providers, (where applicable), existing quality audit information generated for the purposes of other principal stakeholders, for example NHS England (NHSE), General Pharmaceutical Council (GPhC), Care Quality Commission (CQC).

The South Tyneside Integrated Sexual Health Service will endeavour to give the Provider 28 days' notice that it is carrying out the assessment, however if concerns or issues are raised regarding the Service, the South Tyneside Integrated Sexual Health Service can carry an unplanned assessment without any notice.

Management of data

Data subjects

The Personal Data processed by Boots and/or the Main Contractor concerns:

- recipients of the Service

Types of Personal Data

Personal Data will be Processed by Boots under Article 6(1)(e) and Article 9(2)(h) of the GDPR and will include:

- data which identifies the recipients of the Service - such as name, contact details (which may include address, email address or phone number) and date of birth/age;
- data relating to the health of the recipient and details of any test or treatment provided by Boots (special category data);
- GP details (including name and practice details) where required
- financial data of the Parties in order to invoice and receive payment for Services.

Processing operations

Personal data will be processed by Boots and/or the Main Contractor in order for:

- Boots to provide the Services under this Agreement;
- Boots to maintain records required for provision of the Service;
- Boots to invoice and receive payment from the Main Contractor; and
- quality assurance, performance management and contract management by the Main Contractor and/or the Head Contractor.

Duration of Processing

The personal data processed by Boots and/or the Main Contractor will be subject to the above processing operations for the duration of the Agreement and subsequently where such retention is required by applicable law or for actual or prospective legal claims or as otherwise set out by either Party.

Variation to Schedule 3: Addition of Pricing for EHC Service

Fees, Invoicing, Pricing and Payment

In consideration of the Provider delivering the Service the South Tyneside Integrated Sexual Health Service will pay the Provider the following Prices (all Prices exclude VAT):

Element to be Delivered	Amount
Consultation	£11.26 (VAT exempt)
Dual (chlam/gonorrh) screening kit	£1.00 (VAT exempt)
Levonorgestrel per dose	£5.20 drug tariff unit price as of April 1 st 2021 plus VAT (reduced rate)
Ulipristal per dose	£14.05 drug tariff unit price as of April 1 st 2021 plus VAT (reduced rate)

The claims are to be submitted to PSNE via Pharmoutcomes.

Claims will only be paid so long as the Provider/practitioner complies with the PGD, 'Qualifications Required' and the inclusion criteria of the PGD. There is a 3-month grace period for submission and payment of historical claims. For the avoidance of doubt, any claim made outside of the 3-month grace period (claims for activity undertaken more than 3 months previously) will not be paid.

The Price shall remain as set out during the financial year 2020/21. If the Service is extended the Price shall continue at the same rate unless a variation is agreed with South Tyneside Integrated Sexual Health Service.

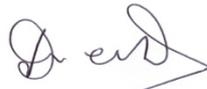

This Variation can be digitally accepted via a submission on Pharmoutcomes contracting module however should your company's procedures require a signature from an authorised person please print this variation, sign below, date the front page and email to sami.hanna@psne.co.uk

Multiple Contractors

Should your company have multiple pharmacies in South Tyneside please also supply a list of pharmacies participating in the service below. You have the right to amend the list of pharmacies as needed however you must give notice to PSNE of any changes.

IN WITNESS OF THE ABOVE the parties have signed this Variation Agreement on the date written at the head of this Variation Agreement.
