## Think Pharmacy First Common Ailments Scheme Summary Pathway

- Assess the patient's condition using a structured approach to responding to symptoms.
- Identify any concurrent medication or medical conditions, which may affect the treatment of the patient.
- Consider any prior medication used and assess appropriateness of further supply.
- Provide advice on the management, the self-limiting nature and time course of the condition.
- · Provide an appropriate and relevant information leaflet.
- Provide medication from the formulary appropriate to the patient's condition as required.
- If a product is supplied, the pharmacist will ensure the supply is recorded on the Patient Medical Record (PMR) system.
- Complete a record of the interaction on PharmOutcomes.

## Data

Transmit aggregate data from PharmOutcomes to the Commissioner on a monthly basis.
