

Good Practice Guidance for Care Homes
Re-use of Surplus Paracetamol Stock Form
** Only for use during Coronavirus19 Pandemic**

The use of this form is only for surplus paracetamol products that are no longer needed or prescribed for residents within the care home and must only be used with a supporting risk assessment for the re-use of paracetamol stocks and evidence of authorisation to administer, either under the home's homely remedy policy (H) or following advice from a health care professional (HCP).

Note: For use in "as required" (PRN) doses only
 Remember to also record on the MAR chart & Reverse Carers Notes

Name of Care Home	
Medication	Paracetamol Strength..... Formulation.....
